Mel Brown and Michelle Bourgois perform The Wind Beneath My Wings

Josh Brown, Kate Raines, Brooke Simon, Elizabeth Skillen and Zane Sparke

Our Term 3 Staff Development Day all staff focused on workshops utilising Technology, including interactive whiteboards, Moodle, Onenote, Blogs and SMMarks. With the Digital Education Revolution (DER) and our continual efforts for engaging students in the classroom all staff valued the time and knowledge learnt on the day. Head Teachers will have the opportunity to follow up from the day at our College Executive meeting by discussing outcomes and strategies developed in KLA groups.

Last Friday I attended a community meeting to discuss a proposed "Men's Shed" for the Forster Tuncurry area. There were over 50 people in attendance from a variety of service organisations and volunteer groups. I had the opportunity to discuss what the Great Lakes College could contribute through our Trade Training facility on the senior campus site. It was determined that a Men's Shed be developed in this area with a steering committee to now develop the concept plan and future directions. It has been proven invaluable in communities where Men's Shed function and I am sure it will be the same in Forster Tuncurry.

College Principal*

Technical Support Phone Scam Warning

This warning applies to all students, parents and staff members who use computers at home.

Concerns have been raised by parents about phone calls from cold callers, pretending to represent Microsoft, who attempt to scare people into believing that their computer has been infected by a virus. The callers can be quite convincing and persistent. They take advantage of basic fears about online security. Their aim is to convince people to agree to use a credit card to pay for an online technical support and virus repair service.

The caller attempts to direct people to a remote access website by claiming that it will assist the caller to clean up the virus problem and install the technical support service. Not only is the service they provide a sham and based on deception, it can leave a computer more vulnerable to malicious attacks.

This type of call is a scam. These scammers have nothing to do with the Department of Education, Employment and Training or Microsoft. The best thing to do is to hang up on these callers.

It is not possible for any departmental computer to be monitored remotely by these callers, including the DER laptops when being used at home. Remote access websites are already blocked by DER and DET web filters. It is impossible for external companies to load software onto DER computers.

See this Sydney Morning Herald article for more information about these scams:
www.smh.com.au/technology/security/pay-up-or-your-pcs-toast-20100630-zm8i.html

Microsoft Australia's Government Affairs blog, GovTech, included information about this type of scam on 28 February 2010:
<http://blogs.msdn.com/b/govtech/archive/2010/02/28/protecting-consumers-from-fraud.a>

2011 Leadership Team Elect

It is with much pride and pleasure we introduce the 2011 Leadership Team Elect.

CHS Open Girls Touch Knockout Tournament

On June 18 the Great Lakes College Girls Touch team travelled to Broadmeadow to compete in the CHS Open Girls Touch Knockout Tournament. The girls had progressed to the final eight teams in the Hunter Region and were playing for a spot in the final to be held in Sydney later this year.

They were up against Tomaree in the first round and got first points on the board thanks to a try by Jess Barber. The girls held Tomaree scoreless for most of the first half of the game but a couple of lapses in defence saw the opposition score three quick tries. We were unfortunate to have a couple of tries disallowed and with time running out, Sarah Gernyn took an intercept to score a brilliant length of the field try to get the girls back into the game 2-3.

Unfortunately time ran out and the girls went down 2-3 at full time with Tomaree, progressing to the final against Hunter Sports High.

The team then played consolation games against Singleton and Chatham, drawing with each of those teams.

Overall, the girls played well and had an enjoyable day.

Thanks to Ms Tyrie for organising the team and the parents who drove all the players to the tournament.

A special thank you, also, to Scott King who refereed for the girls and did an outstanding job.

Alice Katen

Above: Victorious Year 7 and 8 Girls Touch Football Team

Year 7 and 8 NSW Touch All Schools Gala Day

On Tuesday July 27 a group of 20 students from Year 7 and 8 travelled to Taree to compete in the 7/8 All School Touch Gala Day. The school entered two teams to compete on the day. The boys' team had some pleasing results throughout the day and played hard. A big thank you must go to Joseph Peters who coached the boys' team and Corey Eason who volunteered to referee all day.

The girls' team had a very successful day going through all their pool games undefeated. They had some confidence going into the finals with such easy wins leading up to this. In the finals the winning didn't stop with the girls winning the grand final against St Clares High School 3-2. All the girls played outstandingly. With this win they now go to Penrith in November to play in the state finals. This is an outstanding result. Well done girls!

I'd like to commend all the students on their outstanding behaviour all day and their excellent display of sportsmanship.

*Gemma Tyrie and Robyn Crook
PD/H/PE Teachers*

Above: Open Girls Touch Football Team

Lauris Sets Her Sights on Paralympic Games

Lauris Donovan, a Year 9 student from Forster Campus has been asked to travel to America to gain valuable experience as part of the paralympic development squad.

Lauris has recently returned from New Zealand where she competed with the NSW Paralympic development squad. In New Zealand, Lauris competed in 3 sports; athletics, cycling and swimming.

At the end of the comp Lauris received one of two golden runner awards for the most outstanding female athlete of the competition.

NZ results;

Athletics (Class 36) - Those in classifications 32-34 compete in wheelchair events, while athletes in classes 35-38 are ambulant, meaning they can walk (or in this case run).

1st 8km run, shot-put, 100m, 200m

2nd long jump, 400m

Cycling (Division 3) - Cerebral Palsy (CP): These cyclists compete in four functional divisions. Division 1 most severely disabled through to Division 4 least disabled.

1st 18km road race

Swimming (Class S9) - S1 through to S10 are for competitors with physical disabilities. The classes rank highest to lowest in terms of level of disability, so S1 is for the most severely disabled swimmers, while S10 is for those with the mildest form of disability.

1st 2km open water swim

Lauris trains locally at the aquatic centre. She is also a member of the u/15 Green Point Soccer team.

Congratulations Lauris on your achievements so far!

Annette Sanders
PD/H/PE Teacher

Great Lakes College Volleyball

Both the Open girls' and boys' teams competed at the final 16 of the state knockout at Homebush during the last week of term 2. This has been a regular occurrence for the Volleyball squads over the last twelve years. Both teams didn't perform as well as expected but still produced creditable results with the girls finishing 7th in the state and the boys 8th.

Tara Creighton from the girls' team has also just returned from an international tournament in Napier, New Zealand where she represented NSW Combined High Schools in the Trans Tasman Tournament involving North Island and South Island from New Zealand and NSW and Qld from Australia. Tara's performances throughout the tournament resulted in her being selected in the honorary Australian team to play New Zealand schools in a test match. The honours went to New Zealand in both the boys and girls test matches a change of result from recent years.

Tara along with Gavin Thorby also represented NSW Volleyball Association at the recent National Juniors Tournament in Perth, Tara in the under 19's division and Gavin in the under 17's division. Tara's team won the bronze medal in their division.

Years 7/8 All Schools Touch Football Tournament

Congratulations to all Year 7 and 8 Students who recently competed in the All Schools Touch Football Tournament held in Taree on the July 27 2010. Great Lakes College Forster Campus proved to be very competitive in both the boys and girls divisions displaying great skills and good sportsmanship in the process. Both the Year 8 Girls' team and the combined the Year 7 and 8 Girls' team progressed to the quarter finals notching up impressive wins along the way.

The Year 7 and 8 combined boys' team also made it to the quarter finals, amongst a highly contested draw of well polished teams. The standout performance came from the Year 8 Boys' Team who progress to the Grand Final where they met St Clares Taree. After an exhausting 20 minutes, both teams were locked at nil-nil. To determine a winner, the match then proceeded to a drop off situation.

This procedure sees a player from each team leave the field every two minutes until a try is scored. Both teams were reduced to three players until St Clares crossed the try line after ten minutes of drop off time. Despite the heart breaking loss, the Year 8 boys were happy with their performance and the challenge from St Clares. More importantly, all students represented Great Lakes College in the very best possible manner ensuring the school's tradition of sporting excellence was upheld. Special thanks to Miss Yarnold and Mr Johnson for their efforts in coaching our teams and to Maddi Barber, Sian Maidment, Ben Summers and Josh Hull for referring the carnival.

Wendy Yarnold

Deputy Principal's Report

Welcome back to Term 3. This will be a busy term for our Year 10 students with subject selections for Year 11; as well as Trial School Certificate tests in week 8.

Electives for 2011: Our Year 7 and 8 students will also be choosing electives for 2011. A Courses Information Night will be held for current Year 8 students on Tuesday August 10. We advise all Year 8 students and their parents come to this information sharing meeting. Parents will be given information about studying for Stage 5 School Certificate as well as being given information about electives being offered.

Enrolments/ Leavers: Parents are required to inform the school when they are leaving and must complete clearance procedures- signing out of class, returning all school property and paying all outstanding fees.

Unless this occurs, parents will experience delays in the re-enrolment into another school.

Year 10: A letter outlining events for Term 3 will be mailed with our next RAP results. Please take the time to discuss with your child and mark important dates in your family calendar.

*Kim Hamilton
Deputy Principal*

Forster Campus student, Georgia Christie, of Year 10 has recently been awarded a significant prize for writing. Georgia entered the prestigious Gough Whitlam What Matters writing competition as part of her Year 10 English class work and was placed as runner-up in the popular competition. As well as receiving a cheque for \$150.00, Georgia was also treated to a special award ceremony at Western Sydney University in the company of Mrs Margaret Whitlam AO and Ms Therese Rein.

The What Matters? Competition, sponsored by Officeworks, is an opportunity for students in Years 5 to 12 in NSW and ACT schools to have their voices heard, by submitting a 400-600 word opinion piece on the issues in society that are important to them.

Georgia, a talented English student, wrote a very personal account about her family life and what matters most to her; she acknowledged the sacrifices parents make on behalf of their children and conveyed her appreciation of her place in the family. Georgia was delighted to be selected from such a wide range of talented writers from across the state.

*Lynn Graham
English Teacher*

FORSTER CAMPUS ART EXCURSION TO NEWCASTLE

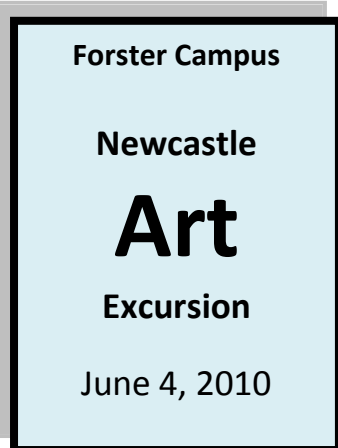

On June 4, 59 students from Years 8, 9 and 10 travelled to Newcastle to see three art exhibitions. We left at 7.45am and arrived at the Newcastle Region Art Gallery at 10am ready to see ARTEXPRESS. This is an annual exhibition of HSC artworks from NSW schools. Students were given guided tours with specially trained assistants.

Next, we visited the Watt Space Gallery run by The University of Newcastle students. Their exhibition encouraged us to celebrate concepts, techniques and independent thoughts. By now, our tummies were rumbling, and the rain was pouring down, so we headed over to Garden City shopping centre at Kotara for lunch.

Afterwards, we travelled to Lake Macquarie Regional Art Gallery to see two exhibitions from the Hunter and Central Coast regions. The first was an exhibition of HSC student artworks, the local equivalent to ARTEXPRESS. The second exhibition was a competition showcasing adult artworks from the Newcastle Region. We had a tour led by the Education Officer and were really inspired by the works. We left for home at 3.30pm.

A huge thank you to all students who attended, you represented our college honourably because of your good manners, intelligent questions and positive attitude. You made our day a lot of fun! Thank you from your Visual Arts teachers Kelly Smith, Jane Sites and Roseina Baker.

Kelly Smith
Visual Arts Teacher

Relieving Principal's Report

Term 3 is often referred to as the 'work term' as students move down the path of embedding new knowledge and ensuring they can express that new knowledge at the appropriate times in exams next term. Please take the time to assist your child to develop good study and review habits. Research has shown that the students who study best are those where there is a home environment that not only supports study but advocates it as a means of self improvement. We know that learning is a lifelong process and studying schoolwork is a good way of ensuring good habits are formed for life.

I want to bring to your attention the continuing problem of students not using the Lakes Way appropriately when coming to and from school. Everyone should proceed to the lights that are at the corner of Northern Parkway and Lakes Way to cross the road there, especially at busy times. I have seen some alarming examples of vehicles being driven through our school zone at speeds much greater than 40km/h and this, together with some of the crossing habits of students, is a recipe for certain disaster in the future. Please work with us on this very vital matter. Please encourage your child to cross the Lakes Way appropriately and not to become the one to be hit by a car in the future. If we work together, I know we can avoid a potential disaster for some one.

Last term I started to discuss the Core Values with you and list some of the statements that go with them. Today, I am continuing with this and want you to think about cooperation. As we go through life, if we take the risk to become the best we can be, sometimes we will fall short of what we desire. It is important when this happens to know that there are people out there who will support us and help us to feel encouraged to continue pushing forward. Cooperation is the key to ensuring that support. It is often referred to as the safety net of human endeavour. In other words, cooperating with people along the way ensures that they are there for us when we need support. People

with whom we cooperate are happy to cooperate with and support us in return.

Cooperation

- Everyone working together in a positive way
- Facilitate links between campuses to grow GLC
- Be cooperative with each other
- Value and encourage others to speak and express opinions
- Provide a supportive and safe school environment
- Being punctual and well prepared
- Being friendly and approachable
- Being supportive of each other
- Following expected codes of behaviour and dress

The first point advises us to work together in a positive way. This simply requires an attitude that is both positive and supportive. We can all choose to be that way and know that it will come back to us in return. Notice also that the other points are simply desirable aspects of being an effective member of any community. That is because the whole notion of community depends upon cooperation in order to work.

Paul Bulbert
Relieving Principal

TUNCURRY JUNIOR CAMPUS

Year 7 Girls will be given third HPV Vaccination

NAIDOC Celebration Assembly

On June 29 our campus celebrated NAIDOC week by holding a celebration assembly involving both Indigenous and non Indigenous participants. Corey Smith and Mel Brown had organised groups of students to perform cultural and modern dances which showcased our local talent. A very moving dance 'Hallelujah' was performed by Shahnai Elms and Liz Perkins as well as a special signing segment where Mel Brown and Michelle Bourgois brilliantly interpreted the song 'Wind Beneath My Wings'. The Year 7 and 8 girls included Jenny Tisdell, Alana Connolly, Sophy Eyre-Worth, Laura Aceglav, Rhiannon McCarthy, Gemma Pol, Shae Schubert, Chelse Simon, Tayla Smith, Mikayla Tobin-Sheather and Jessica Lambert were assisted in their presentation by choreographers Dana Fletcher and Billie Grace Mendham who gave up their lunch time to work on the 'Celebrate' dance. Corey Smith again led the boys Damon Miranda, James Jenkins, Blake Finn and Jordan Harwood to the opening of the celebration by welcoming us with a cultural dance 'The Hunter'. Jordan Jeager, Nakea Simon, Kiana Mills, Cheyenne Cooper and Jess Lambert also participated in the assembly.

Parents and guests enjoyed morning tea with our Indigenous students from both campuses. Special mention must be made of the generosity and commitment of Mel Brown our Aboriginal Coordinator who has been a tremendous mentor to our students.

Fran Ballard
Head Teacher – English/History

Jeans for Genes Day

Jeans for Genes Day will be held on Friday August 6.

Jeans for Genes Day will be a "semi-out-of-uniform day". Students are permitted to wear jeans however the top half must still be school uniform. That means correct shirt and jumper. As normal school lessons will be held and school expectations must be followed, it is important to remember that students must abide by OHS regulations that state the correct footwear must also be worn. This means that all shoes must be fully enclosed with substantial uppers (no thongs, canvas or open toed shoes). If students fail to follow these guidelines, then future mufti days will be jeopardised.

Students are asked to donate a gold coin to support the Children's Medical Research Institute.

TUNCURRY SENIOR CAMPUS

Mid North Coast VET Student of the Year

Nicole Cooke of Year 12 is to be congratulated recently having been named Mid North Coast VET Student of the Year. The announcement was made recently in Coffs Harbour at a gala dinner. Nicole is now entered in the State finals and will fly to Sydney to attend the next round of interviews.

Nicole is currently undertaking a school based traineeship with Great Lakes Tourism Information Centre, as part of her studies for the HSC. Nicole attends school three days per week which includes study for a Certificate II in Tourism at TAFE, Nicole then works three days per week at the Tourist Information Centre.

Nicole's work at the Information Centre is varied. She is involved in mailing, booking holidays for visitors, setting up displays and promotional information, answering phone inquiries and answering visitor questions. Nicole is required to give first hand information about the facilities and features of the region and as a result has visited many of our beautiful facilities and completed numerous trips.

Nicole really enjoys working at the Tourist Information Centre. "I love working within the Tourism Industry, no one day is the same, I love helping costumers to make sure they have a great and memorable holiday. I am so thrilled to have got this far".

Greg Glanville
VET Coordinator

Art News - Senior Campus Open Day

The Tuncurry Senior Campus Open Day Art Exhibition was attended by a broad range of people, whose support for our students and responses to their artworks was overwhelmingly positive. This was the first time Year 11 Visual Arts and Photography students have exhibited their artworks at the TAFE campus exhibition space. The students were given a set theme by their teacher. They were asked to interpret this theme in their own independent way. The diversity of concepts and use of materials was inspiring and motivated comments from the exhibition audience including;

"I'd like to take this one home."

"Look at that, it's brilliant!"

"This is the calibre of work you need to be producing next year."

The exhibition will hopefully run each year in conjunction with the Open Day. Thank you to everyone who attended the exhibition, to Head Teacher Steve Williams for offering the TAFE gallery, to all students whose work was selected for display and to Visual Arts teachers Dee Hardinge and Kelly Smith who hung the artworks.

Kelly Smith
Visual Arts Teacher

Prospective Students for Year 11 2011

Subject selection interviews will be held at Forster Campus on Monday August 16 and Tuncurry Junior Campus on Tuesday August 17.

Enrolment forms for next year will be posted home by Week 4. These need to be returned at the interview.

Annual Physics Experiment-Fest

On the weekend of June 26 and 27 sixty Year 12 Physics students from schools in the district (Tuncurry Senior Campus, Taree, Chatham, Wingham, St Clares, Kempsey, Melville, McKillop Senior College, Taree Christian Community and Manning Valley Anglican) braved the cold and rain to attend the Annual Physics Experiment-Fest. This event involves the University of Newcastle bringing specialised equipment to the College, and setting up in the Science teaching spaces and labs a set of experiments and demonstrations that are difficult for schools to perform.

Above: Luke Holroyd, Mikaela Stewart and Emily Gray

Students from the schools involved interacted very well with each other on the day, setting up networks to swap exam papers. The staff from the surrounding schools were impressed with both the content covered, and the facilities we have available.

A couple of minor hiccups encountered on the day included:-

The university set up in C111 and C112 before I had a chance to take a close look at the floor plans. (Since my weekly Phys/Chem tutorial didn't finish until 4.30 on Friday afternoon). Hence, I wasn't sure on Saturday afternoon when I was tidying up exactly how the tables and chairs in those rooms should have been arranged. Thanks to those roll call teachers who were able to reconfigure those rooms on Monday morning.

In setting up the Smart-Board in C112 to accept a video feed from a digital camera the University was using, the video feed was removed from the normal source. In cleaning up on Saturday afternoon, I did not notice that the plug had not been returned to its socket. Thanks to the staff involved who were able to remedy this on Monday morning.

All in all, the day was very successful, further enhancing the links that the College has created with the University of Newcastle. We are the only school

outside the Hunter who has access to their Experiment-Fest activities related to Biology and Chemistry (held in Newcastle), and to have the University prepared to travel to us to present Physics is an indication of the esteem they hold us in.

Thanks to all concerned who helped make the day a success. In particular, Marilyn Martin for organising some of the resources used, and the Library and Rod Dransfield for making sure that our laptops could handle the computing session on the day. Thanks as well to those teachers who accepted with good humour the slight inconveniences mentioned above on Monday due to this activity.

Matt Avery
Head Teacher - Maths/Science

Use and Abuse of Mobile Phones

In any working environment, it is not acceptable for employees to be taking private calls on their mobiles, for text messages to be received and sent nor it is acceptable for phones to ring during meetings, conferences etc.

At Tuncurry Senior Campus, we strive to treat students as adults but this is being sorely tested here with students failing to switch off during lesson time. This affects our teaching, students learning and creates an environment not conducive to staying on task.

Parents / Care Givers

Please contact the office during class hours rather than your student directly. We have asked students to have phones switched off and in bags during lessons. If you need to contact them, phone before 8.40am, between 11.00am and 11.30am, between 1.30pm and 2.00pm or after 3.00pm. Please do not call or text them during class time.

Students

Comply with instructions of the work place or face having your phone taken from you. Phones and other devices cannot be taken into any exams so get used to being separated from them for short periods.

Phones must be switched off, on silent and placed in bags during lessons.

The student handbook clearly explains the policy and their misuse is seen as a serious breach.

Sue Goodison
Head Teacher - Teaching and Learning/ Languages

Attention All VET Students: Let's talk more about Work Placement

Work placement is 'Mandatory' for each VET Subject
(35 hours for Each Senior Year of Study)

- Develop skills and knowledge
- Gain maturity in an adult work environment
- Develop an employer relationship
- Understand roles & responsibilities of employees

Work placement has now been arranged and will take place in weeks 5 and 6 in Term 3. Employers have been contacted and student placement records have been distributed. Students need to contact their host employer to have their student placement record signed and returned to the school **before** commencing work placement.

A fee for service will be incurred for re-organisation of placements that have been cancelled as a result of student inaction, change of mind, non-attendance etc.

For further information please contact Catherine Burke Mid Coast Connect Ph: 6555 6125 or 0439 246670
